

# Centre de Référence Circuits courts

*Reference center of short supply chain*

**General presentation**

***Scotland, June 2014***

Created by

the Minister of Economy and the Minister of Sustainable  
Development in context of Marshall Plan 2.Vert

Main goal:

**Promote the development of short supply chain in Wallonia  
in food and non-food areas for a most endogenous and fair  
economy as possible for a transition to sustainable  
development**

# Missions of CRCC

## Network and coherence of the sector

- to network and strengthen the actors of the sector providing overall coherence ;

## Sector mapping

- create, update and distribute a catalog of direct and indirect actors of the sector in Wallonia ;

## Being a point of contact

- be the contact point :
  - for any accompanying/sensitization structure wanting to be aware of best practices in short supply chain sector
  - to organize orientation of projects to support structures

## Distribution of information

- organize a watch on initiatives in short supply chain and disseminate the most innovative and sustainable practices ;
- create an accessible resource center ;

## Encourage the sector...

- promote the emergence of innovative projects in sustainable short supply chain ;
- make the connection with the Brussels Region to meet the demands of local products of Brussels ;
- make recommendations to stimulate sector in Wallonia.

## ... Food and non-food

- develop a typology of short supply chains and define criteria to transpose the concept to non-food sector ;

---
