

Digital Wallonia
11/2017

From March to July 2015,
over 240 proposals via an interactive website
and over 200 people representing 140
organizations or companies participating
in 13 thematic working groups.

Co-creation process

Collaborative and
bottom-up process.

In September 2015, the Digital Board, chaired by Pierre
Rion, with the support of Roland Berger, submitted a
proposal for a digital strategy to the Minister in charge
of the digital agenda.

Digital Board

Digital
Strategy

Walloon Government

Adoption of Digital Wallonia, digital strategy of
Wallonia, by the Walloon Government on
10/12/2015. Launching of the first actions.

Implementation

From January 2016, progressive implementation
of the actions, identification of the actors
involved and partnerships, allocation of budgets,
launching of the online platform, etc.

Transforming the business models of companies and reindustrialising Wallonia through digital

Developing the attractiveness of Wallonia's territory through broadband networks and a Smart Region approach

Digital Economy

Smart & Connected Territory

Capturing the added value of digital transformation through a strong, international and innovative digital sector

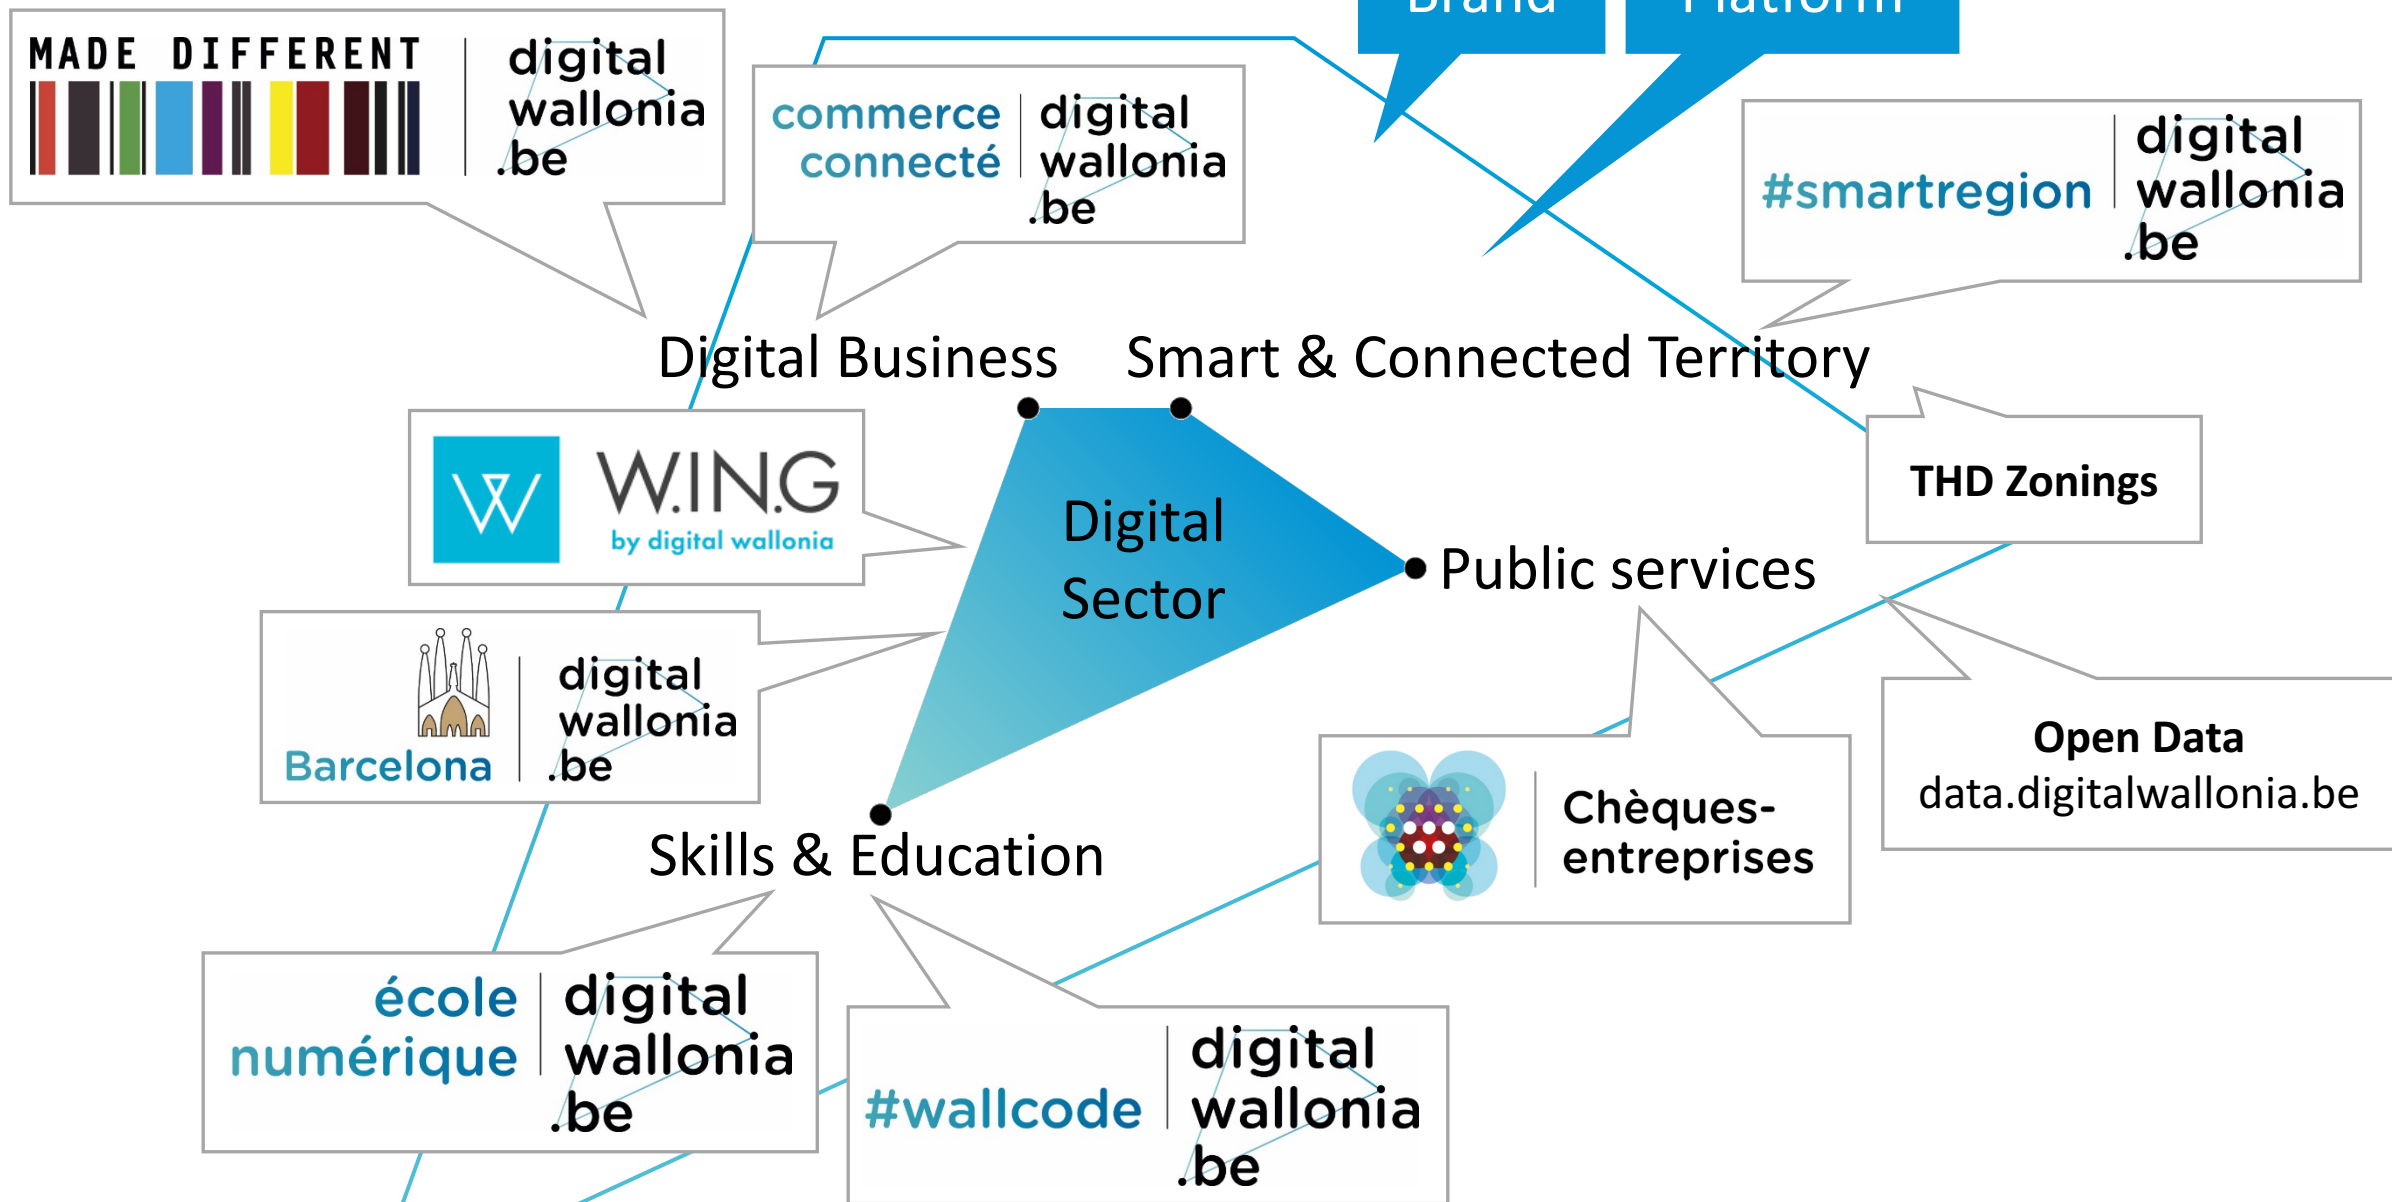

Digital Sector

Public Services

Engaging a real Open Government approach and developing innovation through the use of open data

Skills & Education

Making digital a priority for school equipment, education for the younger generations and lifelong training

Strategy.

Policy framework for a full digital region.

It establishes the priorities and objectives of public policies and the support for private sector initiatives in the field of digital transformation.

Platform.

Showcase of the digital sector in Wallonia.

It provides services and support to public and private sectors stakeholders involved in the implementation of the digital strategy.

Brand.

Incarnation of the digital ambition of Wallonia.

It unifies public and private sector actors and initiatives launched within the framework of the digital strategy and ensures their visibility.
